January 29, 2021

Dear Bellwood-Antis School District Family,

We were notified of COVID 19 cases in our schools. At this time, these numbers do not mandate the official closure of our schools. However, we want to get ahead of the situation, and we will close the district Saturday and Sunday (January 30 and 31) for deep cleaning. This closure is in compliance with PDE guidelines which states, *"If case investigations, contact tracing, and cleaning and disinfecting can be accomplished in a faster time frame, the length of closure time may be shortened."*

This is a preemptive closure and there will be no practices over the weekend. No employees will be allowed in the buildings except for custodians for cleaning purposes. This will enable the district to reset our numbers over the weekend in an effort to not disrupt education next week.

The events that are scheduled for this evening (Friday, January 29) will continue as planned.

Have a good weekend.

Sincerely,

Thomas R. McInroy, Ed.D.
Superintendent
